There should be a large representation from every district present at the commencement, which will be an event of great importance in the history of the schools of Weber county.

The opening races occur at the Junction City driving park next week.

The Produce Exchange

Business on 'change yesterday was exceedingly quiet on account of the recent rains. All kinds of fruit and produce, even spring chickens, suffered from the recent floods, the exchange losing a large number at the Brigham agency on account of the rain Saturday driving in on them and causing them to trouble one another to death. The strawberry market was so shaky that deslers were almost afraid to touch them at any price, lest they be water soaked. It is estimated that the loss to Utah fruit growers on the strawberry crop alone, on account of the unfavorable weather, has been \$50,000.

In anticipation of an immense crop of strawberries orders have come pouring in upon our dealers for the past week far be yond their ability to fill.

Tariff Effects Everybody.

The question of tariff taxation is of interest to every honest man in the country, whether he be poor or rich. But while the parative indifference, those who must exercise their muscles to make a living can not slight it without sacrificing themselves. With a moderate tariff the markets of the world would be opened to our enterprise. with a moderate tariff the markets of the world would be opened to our enterprise, with the effect of presenting our merchants and manufacturers an opportunity to sell in other regions of the earth every article produced in excess of the demand here at home.
